Public Information Meeting

Locks Pond Road – Sawmill River Culvert Replacement

This meeting will present the proposed design for the replacement of the existing Sawmill River culvert beneath Locks Pond Road. Topics which will be discussed include a description of the existing culvert and the need for replacement, a discussion of the hydraulic requirements, a description of the proposed culvert structure and wing walls, a description of the proposed roadway and drainage, improvements to the existing streambed, easement requirements, and impacts during construction. The session will be open for public questions and comments. A recording of the public information meeting will be posted online.

Presentation by Nitsch Engineering

Matt Styckiewicz, PE | Structural Engineer

Emad A. Elsakka, PE

Vice President, Director of Structural Engineering
